Re: E911 Phase II Carrier Implementation Report
Call Sign WNPA709

Dear Ms. Salas:

Coon Valley Co-op Telephone Association, Inc. ("Coon Valley") (TRS No. 809120) hereby submits this response to the December 27, 2000, letter from Thomas J. Sugrue, Chief, Wireless Telecommunications Bureau ("WTB") requesting a report on Coon Valley's plans for implementation of wireless Enhanced 911 Phase II automatic location identification (ALI) systems for call sign WNPA709. This call sign is for a telephone maintenance radio license. However, §20.18 of the FCC's Rules states that the E911 Phase II requirements are applicable to only Broadband Personal Communications Services, Cellular Telephone Service and Geographic Area Special Radio Services and Incumbent Wide Area SMR Licensees in the 800 MHz and 900 MHz bands. Therefore, Coon Valley is not required to file an E911 Phase II report.

Should you require further information, please contact me.

Very truly yours,

cc: Wendy Austrie
